Projects

Refubook - [DEMO](#) | [CODE](#)

Dec 2022 - Jun 2023 /Full Time

A communication platform for refugees

- Technologies: React.js, Redux, Firebase, Tailwind CSS, Figma
- In this team project, I am in the role of both team leader and software developer. I learn so much about the specified technology details.

Mad Libs - [DEMO](#) | [CODE](#)

Oct 2022 - Oct 2022 /Full Time

A game page creates a story with user inputs

- Technologies: Vanilla JavaScript, HTML, CSS
- This team project was my first experience on frontend development. I learnt a lot about to work in a developer group.

- English Professional Working Proficiency

About Me

Web Developer passionate about developing new user-facing features, building reusable codes, and determining the structure and design of web pages. Well-versed in HTML, CSS, and JavaScript to make a consistent and clear online presence to gain, satisfy, and retain customers, with a robust skill set in interpersonal communication and a background in creating webpage as a group project. My proudest accomplishment is creating clean and well-organized work.
